A new comment has been submitted at socotransmission.com.

COMMENT

Meeting Attended:

Important Issues:

Land Use (Agriculture, Residential, Recreation), Radio or Television Interference, Noise, Health and Safety, Project Purpose and Need, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential

Comment:

I am sure my grand-mother, father, mother, aunts, uncles, sisters, cousins, n-laws and friends have submitted comments pertaining to the proposal to cross our property in LaVeta Acres with high voltage power lines. This is an unwanted intrusion on and destruction of portions of our family legacy. We are all united in our protest against this proposal. My son is the first of the next generation of our family. I intend for him to get the same enjoyment from our "pristine" property as the rest of us have. He doesn't deserve to have to accept less. He doesn't deserve to have ugly, barren scars and high voltage towers deminishing the overall experience.

I-268-001: Visual and Aesthetic (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to visual and aesthetic resources from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
